# 3<sup>rd</sup> Workshop: The Future of Swiss Hydropower

29.03.2019

Bern

# Discussion Points

---

- **Where can and where can't Swiss Hydro act?**  
How much impact do Swiss policies (i.e. green base tariff) really have in a global/European dominated system?
- **Flexible water fees: compromise possible?**  
Is a risk sharing mechanism possible (water fee reserve)?  
What about the reference price?
- **Flexible framework in general?**  
Concessions? Environmental regulations?
- **Electricity market design and hydropower**  
How much linkage is between those topics?
- **What needs to be done until 2024?**
